Git

AVAILABILITY

Notice period: 2 months
Current CTC 19L, Expected 25L

PROFILE

Java engineer with 5 years in product companies. Microservices, Kafka, AWS and a lot of Docker. Prefer small teams that ship every week.

EXPERIENCE

Senior Java Developer, Quillstone Labs, Pune — Dec 2023 – Present

- Own the notifications platform: Kafka consumers, templating and delivery tracking for 2 million messages a day.
- Designed REST APIs and webhooks for six client applications.
- Cut AWS spend on the platform by 22% through right sizing and autoscaling.

Java Developer, Skylark Systems, Pune — Nov 2021 – Dec 2023

- Built booking and payments microservices with Spring Boot and PostgreSQL.
- Containerised all services with Docker and moved deployments to AWS ECS.

EDUCATION

- B.E., Computer Engineering, College of Engineering Pune, 2021 (8.7 CGPA)
