KYC Analyst

Sahyadri Finserv, Back Office Operations

Role Summary

Sahyadri Finserv is a non-banking finance company with a growing retail lending and deposits business. The back office team verifies new and existing customers before accounts and loans go live. We are looking for a KYC Analyst to join the onboarding verification desk.

Key Details

- Experience required: 2 to 4 years in KYC or customer verification
- Location: Pune or Noida
- Notice period: up to 30 days
- CTC budget: 5 to 8 LPA
- Shift: general, Monday to Saturday (alternate Saturdays off)

Responsibilities

- Verify customer identity and address documents against regulatory KYC norms.
- Run AML checks and screen customers against watchlists and adverse media sources.
- Escalate suspicious or incomplete cases to the compliance officer with clear notes.
- Maintain daily trackers in Excel and report turnaround and rejection numbers.
- Keep customer files audit ready and respond to internal audit queries.

Required Skills

- KYC processes and documentation for individual and non-individual customers
- AML checks and screening
- Working knowledge of Excel (filters, lookups, pivot tables)
- Good written communication

Preferred

- Customer due diligence experience in a bank, NBFC or fintech
- Exposure to sanctions screening tools

Qualification

Graduate in any stream. B.Com, BBA or BA preferred.
